Program for Individual Membership

EXCHANGE, PARTICIPATE, NETWORK

LVMI-Europe's Individual Membership Program offers journalists, executives, politicians, civil servants and other individuals the opportunity to stay informed and learn about European and international politics and economics from a liberal, yet non-partisan point of view.

Our aim and who we are...

The Ludwig von Mises Institute-Europe was established on 12th October, 2002 as a non-partisan think-tank fostering an open and free society. It bears the name of Ludwig von Mises, one of the most prominent libertarian economists of the whole XX century, and one of the main representatives of the Austrian School.

The Ludwig von Mises Institute-Europe primarily aims at:

- **Promoting** a free and open economy through exchanging the principal ideas and merits of Classical Liberalism with a particular focus on the economic ideas of the Austrian School,
- **Bridging the gap** between "Brussels" and the European citizens and between Eurocrats and Eurosceptics

- **Acting** as an interface between top academics, senior business leaders, respected media commentators, and leading politicians across the EU and in Brussels
- **Educating** young professionals and students across the globe on the workings of the European Institutions

...and what we do

Since its foundation, the Ludwig von Mises Institute-Europe has successfully organized a variety of conferences, symposia, discussions, targeted dinner debates and lunch debates, discussing topics like: The growing role of the EU, Knowledge & Innovation, Transatlantic Relations, Tax Competition, Better Regulation, Islam and the EU and IT regulation.

Members include former Prime Ministers, MEPs, former commissioners, key politicians, senior academics, business leaders and prominent journalists.

LVMI-Europe aims to foster a free and open society and unite believers in the free market across the artificial boundaries that often divide academic, administrative, business, civil society, media and political circles. LVMI-Europe wishes to demonstrate that - within the framework of the Rule of Law- the principles and merits of Liberalism are still required, above all to prevent unnecessary restrictions and propagate better legislation.

Our goal is to initiate new and unaccustomed ways of analysis and debate in order to thoroughly assess the prospective impact of Liberalism on the society, with the sole objective to create prosperity for every individual.

Use us to your advantage

As an adherent to the ideas and principles of the Austrian School, the LVMI-Europe offers a peculiar reflection and explanation of the political and social conditions characterizing the current international scene. As we lived through the world economic wreckage, contemporary academia ponder on the most appropriate reforms to prevent similar fiascos ever re-occurring, while the Austrian school of economics provides us with the most valuable insights.

The Institute serves as the European leader in promoting Austrian school ideals, providing educational materials, conferences, media, and literature in support of the tradition of thought represented by Austrian school. The main cause of the LVMI is fostering an open and free society, dedicated to bridging the gap between believers in free market across artificial boundaries that often divide academic, business and political circles.

The LVMI-Europe offers an ideal environment for confidential and stimulating exchanges of views and contacts. Don't waste time researching the topics we are passionate about, join us and get the best of the social interactions, economic and political analyse.
